DIMENSIONS JOINERY & INTERIORS

Dimensions Joinery and Interiors is Sydney's leading kitchen design and joinery specialist

Dimensions Joinery and Interiors has operated in Sydney for over 20 years. Our Company is family owned and led by an expert team with decades of experience in the building and cabinet making industry.

We work with builders, architects and interior designers to pair their vision with our expertise to create a versatile kitchen design that is on-trend, made with premium materials and delivered within a competitive cost and time-frame.

The heart of our business is built on our lifelong repeat clientele, which exemplifies our commitment to excellent workmanship, functional design and proven dependable service.

OUR CAPABILITIES AND EXPERTISE

The dynamic family team at Dimensions Joinery and Interiors ensures that each representative you deal with is competent and equally invested to successfully manage your job from conception through to completion with expert proficiency and attention to detail.

We pride ourselves on offering a consistent service and quality outcome for every customer, regardless of the nature or size of the project. Our Company has extensive expertise in creating custom kitchens and joinery from unique one-off designs to large scale projects and kitchen builds including multi-residential developments.

Our Sydney based factory has expert capability to produce a range of residential kitchen designs, bathroom and laundry cabinetry, commercial fit-outs as well as custom furniture and storage solutions suited to your requirements.

WHY CHOOSE DIMENSIONS JOINERY AND INTERIORS

When you partner with Dimensions Joinery and Interiors you can trust that your project is in good hands. Our management team is involved throughout various stages of the process to assure a top level of expertise and artistry is achieved for every creation we put our name to.

Competitive with on time delivery

- We are reliable and efficient with a proven track record of meeting our client's schedule.
- Our management team is accountable for the project's progression and consistently deliver quality workmanship within required time-frames.
- We provide market competitive quotations and offer free design consultations.

Dedication to customer service

- We are a family owned and operated business with a strong commitment to on-going customer support throughout the entire process of the project.
- Our close-knit team ensures that all work is monitored and any possible issue that may arise is resolved promptly.
- We have many lifelong customers who are satisfied with our work and frequently engage with us.

Guaranteed quality assurance

- We deal exclusively with industry leading brands and suppliers including Blum, Laminex and Polytec - providing you with confidence and warranty on all products supplied.
- We always use premium fixtures and fittings as a Company standard irrelevant of the scale or type of project - from individual kitchens to multi-residential complex kitchens.
- We only use Australian A Grade particleboards and frame materials.

Contemporary and functional design

- We understand our market and the end-user needs. Over the years we have perfected the formula to produce elegant kitchen designs without compromising on practicality or breaking the budget.
- Our team is actively working with leading builders, architects and interior designers across Sydney to produce innovative kitchens and fit-outs align with current trends and style.
- We source the latest materials and accessories available on the market from reputable suppliers.

MEET OUR TEAM

George Aziz

Managing Director

George is a talented licensed Builder and has had a distinguished career to date, with more than 40 years in the building industry under his belt. His extensive experience and knowledge in the trade provides leadership to his team and direction for the entire business. George's expertise demands that every build is polished and completed to the highest calibre without any problems.

Damian Aziz

Manager of Operations and Design

Damian offers a diverse skillset and has generous industry experience. He is a licensed Carpenter and has earned a degree in construction management. Damian manages the Company's external relationships and works closely with a range of different clients including designers, architects and builders to achieve their individual design objectives. Damian ensures that every detail is in order before the project commences and reconnects with the client during the development process to provide updates as required. Damian also oversees the daily operations of the business and manages each project to be delivered on time, to an industry leading standard and within budget.

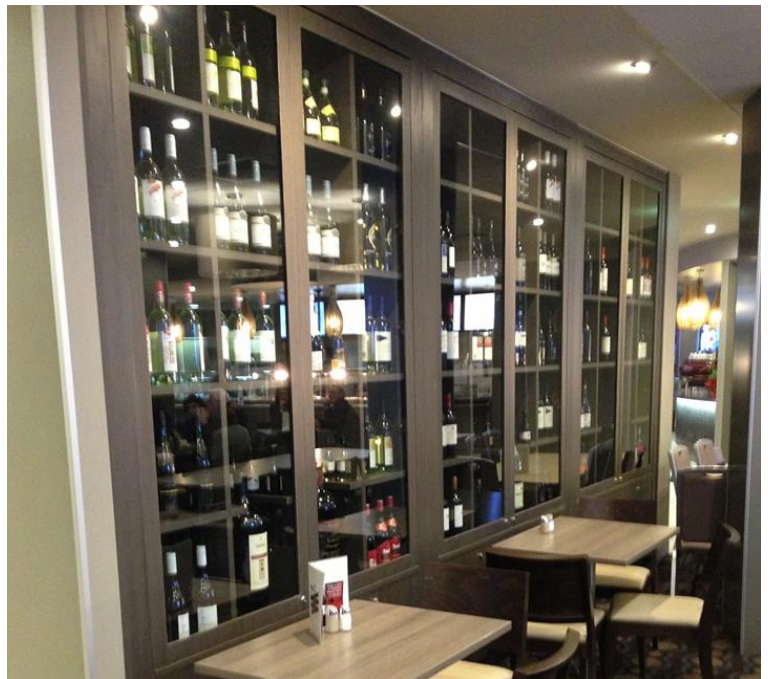

Danny Aziz

Production and Quality Control Manager

Danny attains a wealth of practical and hands-on experience within the business. He is a licensed Carpenter and is responsible for all of the manufacturing, delivery and installation processes for the Company. Danny leads a team of tradesmen onsite and personally monitors each job. He is the primary point of contact for site managers, owners and other external parties who he effectively liaises with to ensure a safe work environment is maintained. Danny's involvement on the ground guarantees quality craftsmanship throughout the build and that the project's progression and completion is achieved within the scheduled time-frame.
